

# SUMMER YOUTH SERIES 2025

## “Courageous”

### Youth Worker’s Guide

Time: 6:30-8:00

We are looking forward to this year's Summer Youth Series to be great. The goal of these series is: uplift and encourage one another and most importantly to worship. The spiritual edification of our youth should be our top priority in this. As you begin to prepare for your week's lesson we ask some things for you to consider. Please understand this is an opportunity to reach the young folks' souls. The worship service should be just that. Worship.

Singing: Our voices should be brought into unison by the song leader. These songs should be what the audience knows and enjoys. We will worship in truth and spirit.

Song Leader: Please lead 7-9 songs. Singing more songs can be encouraged after the meal. Songs of clapping and turning are encouraged but those will need to be separate from worship in order for the unity of all congregations to take place under one roof.

Lesson: The lesson should pertain to the topic at hand. A length of 15-20 minutes is our aim.

Youth connection: Remember, your audience is of youth age and relating your topic to them is something to consider.

Application: The application should take no more than 20 minutes. You are tying an activity that directly connects to the lesson. You do not have to have an application and it is not a deal breaker, but it is strongly encouraged.

Meal: Your congregation will be responsible for organizing and providing the meal on the night you host. Please make sure to get a head count the week before of what congregations will be coming. A list of congregations within a 50 mile radius will be attached. Those congregations will also be receiving a Summer Youth Series flier.
